BR-5000 / BR-6000 / BR-7000

The most popular and versatile of parking stackers.

Designed to accommodate a vast array of vehicles, including SUVs, sedans, and sports cars, the BR-5000/6000/7000 offers a minimum footprint and can be installed independent, or in a ganged column design to capitalize on the available space. The BR-5000/6000/7000 operates in both indoor and outdoor environments and is specifically designed to accommodate the needs of real estate developers, architects, engineers, automotive dealers, and commercial parking operators.

- Perfect solution for both indoor and outdoor parking
- Highly adaptable, customizable and cost-efficient car stackers
- Ganged column design allows multiple installations in minimum space
- Can be configured for drive-through and tandem parking applications
- Lifting capacity 5060lbs. / 5950lbs. / 7054lbs.
- Car height on ground up to 80.7 (2050mm)
- Usable platform width up to 82.7 (2100mm)
- Driven by hydraulic cylinder & lifting chain
- Galvanized corrugated platform

BR-6600T/6600Q

Verticle storage solutions.

The BR-6600T & BR-6600Q is of the most reliable and compact storage solution that allows for 6600lb. lifting capacity per platform. The Tri and Quad lift are designed for both indoor and outdoor operation and are the most cost-effective way to triple or quadruple the capacity of parking areas. This model is the ultimate space saver, allowing three or four vehicles to be stacked in a single parking space. These lifts are designed to boost space efficiency by shared/ganged columns for multi-unit installation. The ultimate solution for dealerships, vehicle storage facilities, airport parking and hotel/valet parking.

- Perfect solution for both indoor and outdoor parking
- Highly adaptable, customizable and cost-efficient car stackers
- Ganged column design allows multiple installations in minimum space
- Can be configured for drive-through and tandem parking applications
- Lifting capacity 6600lbs. per platform
- Key switch control for security and safety
- Solid platform to prevent fluid leakage
- Powder coated for outdoor use

A6S / A6W (Autostacker)

Safe, discreet and perfect for most parking solutions.

The Autostacker (A6S) is the fully collapsible parking lift that doubles the vehicle capacity of a single parking space all while maintaining a 6,000-lb. lifting capacity. Ideal for home garages and commercial applications alike, this unique lift offers a minimal footprint that maximizes expansion. For so many reasons, this is the ultimate lift for homeowners. It's the safe, discreet and ultimately ideal tool for stacking your most-valued machines and its slim nature also makes it perfect for commercial parking lots, indoors or outdoors. Visually pleasing, this lift is not only immensely functional but great to look at too.

- Massive dual hydraulic cylinders
- Five automatic safety locks
- Superior base support
- Detached power unit console
- Industrial-sized power unit available for multiple lift control
- 6,000lb. lifting capacity

BendPak 973P / 973PX

The tri-level HD-973PX is a four-post parking lift that maximizes your parking capacity without adding any additional real estate.

Each HD-973PX houses up to three vehicles on strengthened parking platforms to give you the most space for your buck. With an additional 84" of overall height compared to the HD-973P parking lift, the HD-973PX supports some of the biggest vehicles around! This extra height, along with the additional 10" of runway length, gives you the perfect amount of space to fit longer and taller vehicles, while maintaining a height that will fit comfortably in most shops and garages. With the topmost platform's weight capacity sitting at a hefty 7,000 lbs. and the lower deck handling up to 9,000 lbs., the HD-973PX is ideal for lifting even heavy-duty vehicles like full-size trucks and SUVs.

- Extended length, high rise
- Perfect for parking, storage and service
- Padded trip bar with limit switch prevents lower vehicle from making contact with upper platform
- Durable powder coat finish
- Perfect for cars, trucks, and SUVs
- Platforms feature full-length aluminum decking
- Heavy-duty 3/8" lifting cable
